

CMT-90 Auto-function tester..

More performance, more functions, more tester!

With the introduction of the CMT-90 Auto-function True RMS electrical tester from Greenlee, electrical workers have yet another reason to buy Greenlee. The new CMT-90 is a robust tester with mass electrical appeal. The CMT-90 builds on the success of auto-function technology. It's capable of measuring AC and DC voltage, AC current, resistance and verifying continuity— all without having to use a selector dial.

However, in order to be used in all electrical environments, Greenlee's CMT-90 has True RMS function. The True RMS function provides greater measurement versatility. Beyond the True RMS, Greenlee's CMT-90 has an auto-illuminating function, so as the lighting within a work space dims, the backlight on the CMT-90 automatically illuminates. The

electrical worker can focus on the task at hand and not be distracted with having to push a button or change the selector dial to a different function.

With a safety rating of Category III 1000V and Category IV 600V, the CMT-90 may be used in all facets of the electrical environment - residential, industrial, commercial, and utility. In addition to the voltage range, the CMT-90 Auto-function True RMS electrical tester has measuring capability up to 600 amps AC. The CMT-90 is the only tester in the market that gives the electrical worker such performance in an auto-function format. Make sure to include Greenlee's CMT-90 Auto-function True RMS electrical tester in your Greenlee tool portfolio.

PRODUCT FEATURES

- **Hassle free, automatic measurement** of amperage, voltage and resistance.
- **True RMS** for the most accurate measurement when harmonics are present.
- **Easy viewing**, auto-illuminating backlit display.
- **Auto Off** for longer battery life.
- **Resistance measurement.**
- **Audible continuity test.**
- **Data hold** to capture measurements.
- **10,000 count LCD** for high resolution.
- **Lifetime Limited Warranty.**

CONTENTS/ACCESSORIES

- (1) 9 V battery
- Test leads
- Carry case

SPECIFICATIONS

Amperage measurement:	ACA 0.6 to 600.0
Voltage measurement:	AC V 1.3 to 999.9, DC V 1.8 to 999.9; -0.6 to -999.9
Resistance measurement:	2000Ω
Display:	10,000 count LCD
Jaw opening:	1.34" (34 mm)
Measurement category:	CAT IV, 600 V; CAT III, 1000 V

ORDERING INFORMATION

CAT NO.	UPC NO.	DESCRIPTION	QTY
CMT-90	12123	TESTER, ELECTRICAL 1000V, 600A	1
