[Visit Focal Point](#)

Since 1985, ANP Lighting has been skillfully integrating design aesthetics, engineering excellence, and advancing technology to manufacture the industry's only all-LED line of decorative architectural lighting and warehouse-inspired RLM fixtures. With our privately owned foundry and spinning facilities and in-house engineering department, we can quickly and cost-effectively modify any product to deliver an affordable custom modification solution.

JM Eagle™ is the world's largest plastic pipe manufacturer—an innovative leader that combines advanced technology with superior customer service to create the industry's most sophisticated and diverse products. JM Eagle™ gives its customers a significant competitive advantage in the marketplace with the greatest capacity and geographic reach.

Focal Points Design, engineering, manufacturing, fabrication, assembly, testing, customer service, shipping, billing... all comes from the middle of America, out of our Chicago headquarters and manufacturing facility. Because we are joined by hallways not highways, we have total control over everything needed to supply high quality products, superior service, and fast delivery.

Legrand Mobile Device Charging Solutions allows you to easily add power and USB outlets anywhere with mobile device charging solutions. Simple options can quickly install or attach to existing furniture and workstations, bringing charging ports right to where people need them.
